DETAILED ACTION

This is the fifth Office Action for serial number 10/011,852, Collapsible Support with Arms and Legs and Method for Using, filed on December 4, 2002. Claims 1-10, 12-19, 30-32, and 34-37 are pending.

Claim Rejections - 35 USC § 102

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-10 and 35 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 3,069,021 to Gray. Regarding claims 1-10 and 35, Gray discloses an extendable and retractable apparatus comprising: a body (2 generally) including a longitudinal axis; a plurality of arms (16) attached to the body and extendable to an extended position that is perpendicular to the longitudinal axis by an arm attachment assembly (32); a plurality of legs (34) attached to the body, extendable to an extended position by a leg attachment assembly (36), wherein the extended position includes the legs being at an acute angle relative to the longitudinal axis of the body, and operable to support the support in an upright position; a biasing member (38) linked to the arms and legs and operable to simultaneously move the arms and legs and further including a locking mechanism (42) to bias and retain the arms and legs in the extended position; the locking mechanism (42) further operable to retain the arms and legs in the retracted position; and (in the alternative) an actuating member (36) operable to move the arms

Art Unit: 3632

and legs, wherein the arms and legs are retractable to a position substantially parallel to the longitudinal axis of the body.

Allowable Subject Matter

Claims 12-19, 30-32, 34, 36 and 37 are allowed.

The following is an examiner's statement of reasons for allowance: regarding claim 30, although the prior art of record discloses many of the limitations in the claim, it fails to further teach or suggest moving the arm ring and leg ring in the same direction to simultaneously extend the arms and legs to the extended position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments filed 3/22/04 have been fully considered but they are not persuasive. Regarding applicant's argument that the legs (34) of Gray do not support the hanger in an upright position, examiner respectfully disagrees since the legs are operable to support the hanger in an upright position if the hanger is fully expanded (as shown in Fig. 1) and suspended by arms (16).

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
